**DETAILED ACTION**

1. Receipt is acknowledged of the amendment received on 20 February 2004.

***Allowable Subject Matter***

2. Claims 1 and 5-10 are allowed.
3. The following is an examiner's statement of reasons for allowance: The best prior art of record to Takami et al. (EP 0 820 043 A2) teaches a portable card unit processing apparatus with a communicating section, connecting section, second communicating section, display section, connection determining section, and a control section to control communicating when connected to an external device. However, Takami et al. is silent to a save storage section for holding transaction history information when the card unit is attached to the apparatus while the connection determining section determined that the external apparatus is not connected to the connection section. Sugita et al. (US 6,595,413) teaches that the IC card reader can store/display the transaction history of the IC card. However, Sugita et al. is silent to being connected to an external device, and both references are silent to storing the transaction history information into the save storage section when the connection determining section determined that the external apparatus is not connected.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
